## Discussion Questions:

1. What is God's definition of the Church? Why does he instruct the Church to gather?  
When we come together as a Church community, what should be our primary focus?
2. Why do you think Jesus put together a community of men who didn't necessarily get along with one another? In what ways should the Church reflect that same kind of diversity?
3. Do you think the Church needs to love one another before it can properly love those outside the Church?
4. In what practical ways can the people of God love one another as Christ has loved his disciples?
